A Southern California native, Mike has been involved with motorsports and film making most of his life. He has raced extensively in off road events including the Baja 1000 and has designed and built race cars as well as innovative equipment such as Pursuit gyro stabilized remote crane and R1 carbon fiber arm. Mike has worked on projects with top names such as Michael Bay, Tony Scott, Terry Leonard, and Sal Totino. Mike's knowledge of the filmmaking process combined with his driving skills and collaborative, problem-solving approach
